PROFILE SUMMARY

As a freelancer artist, I honed my skills in creating visually appealing graphics, including logos, banners, and promotional materials that enhanced brand visibility and engagement. My ability to create high-quality visuals has allowed me to bring clients' visions to life, whether through digital artworks, mural, or custom designs. I've collaborated with different clients, including small businesses, and Gaming clans, to create designs that connect with their audience. Currently pursuing BS in Information Technology at PHINMA University of Pangasinan, aiming to blend my design expertise with technical skills to develop innovative digital solutions. I aim to deepen my skills in web development and digital marketing, working toward a role where I can make a strong impact in the tech and gaming industries.
